NOTE.— (a) This table furnishes the basis on which applications for licences will be considered, but is susceptible to modification under special circumstances at the discretion of the Chief Inspector.

(b) Detonators may be kept in an annexe near to or adjoining a magazine under the following conditions :—

- (1) The amount of explosives contained in the detonator must not exceed 100 lbs. reckoned in the proportion of not less than 21 lbs. of explosive per 1,000 detonators (This proportion represents roughly about 44,000 detonators of "Sextuple" strength, with detonators of greater strength the number would be of course less).
- (2) The detonator annexe must be so constructed that not less than two feet of masonry and three feet of air-space shall intervene between any detonators in such annexe and the interior of the main magazine.

(c) The distances given in columns 5 & 7 for quantities not greater than 8,000 lbs. may be reduced by 20 % if the building is effectively traversed.

Distances in column A(2) may be observed between a magazine and magazine office when there is no mound between them.

The weights in Kilograms & distances in metres are given in round figures.

3. for Form 'D', the following Form shall be substituted, namely :—
